

Village Wastewater Treatment Facility Update

As per the Village inspection Report dated January 8, 2021 Compliance Inspection, of the Village Wastewater Treatment Facility we are at capacity. No new service connections will be allowed until this matter is corrected. The Village is currently working with the Vermont Department of Environmental Conservation (ANR) to correct this issue. We will keep all Village Users updated as we move forward. Also remember if you have a submersible pump that pumps groundwater into the Village Sewer you are adding to the problem. Questions please email the Trustees @ villageofalburgh@gmail.com or leave a message at 802.796.3763
